

School Programs at Hardwood Ski and Bike

Come explore the forest through a variety of exciting outdoor activities at Camp Hardwood regardless of the season.

Ages: Grades 4-Post Secondary (Max 150 students per day)

Dates: End of April –Mid November (Mountain Bike and Outdoor Rec)

Mid Dec-End of March (Nordic Skiing and Snowshoeing)

Nordic Skiing (group size: 150 max) Lessons are 1:15 ratio

Students are given an hour lesson in our Adventure Park and then given the rest of the day to explore our School Group trail. Our staff patrol the trails regularly and ensure your students have all returned at days end. Our equipment is well maintained and we ensure that your students are given proper fitting gear to make sure they have a great experience.

Snowshoeing (group size: 40 max) Lessons are 1 guide per class (up to 25)

Students are lead through the forest by our experienced guides (Environmental Ed option by request) who support your class right from the rental doors until the trail's end.

Fatbiking (Max 8 per session)

Students are introduced to the world of fatbiking in snow with a 30min lesson followed by a guided ride. This option is subject to weather conditions where students would be moved into the ski or snowshoe programs. Combinations days are available.

Mountain Biking (group size: 30 max) Lessons are 1:15 ratio

Enjoy the trails and learn some skills. Each student is fitted properly on our well maintained rentals before an hour lesson. Students are given the rest of the day to navigate our easy to follow singletrack trails.

Outdoor Recreation (group size: 120 max) Groups range from 1:8 to 1:15 ratio depending on activity.

Your students will play, explore and be challenged with activities and games. Low Ropes, Human Foosball, Orienteering, Disc Golf, Beach Volleyball, Archery and group challenges will have your students energized and excited to be outside. Outdoor Rec can be combined with Mountain Biking for a full outdoor experience.

Our Facility

Students are welcome in our full service chalet. With plenty of storage for bags, clean washrooms, and a full service café, our facility is a great place to relax, warm up, dry off or cool off during your day.

The trails at Hardwood Ski and Bike run through deciduous and coniferous forests of Oro Medonte (just one hour north of Toronto). The trail systems for all seasons are one way, well-marked and ability rated.

Safety

Student safety is our top priority. Not only are all of the head staff trained as First Responders, but all lead instructors have been trained by NCCP, CANSI, or PMBI. Students and teachers are given clear direction and trail etiquette to maximize safety. Helmets are mandatory for all biking activities.
