COVID “Stay-at-Home” Operations 2021

General Information

In order to ensure Hardwood's is safe and fun for all, a number of changes will be implemented in accordance with local health directives issued for businesses operating in the “Lockdown” Stage 1. This guide will explain our most up-to-date Standard Operating Procedures and COVID precautions. Sanitation stations, increased facility and washroom cleaning frequency as well as new signage will be found around the resort. For the full Provincial Regulations please [click here](#).

All staff are subject to a daily health and wellness screening, with home isolation and/or testing done as required. We ask that you do not visit Hardwood Ski and Bike if you feel unwell, or if anyone in your household or work environment is ill. These precautions will help minimize the transmission of COVID within the resort environment, while maximizing the ability for guests to take full advantage of the resort this season.

Please note the date and version number at the bottom of this page, and insure it is the most up-to-date by checking our [Policies Page](#). We recommend visiting our website, following our social media channels and signing up for our monthly newsletter to ensure you are fully informed of any news and/or changes of importance.
